YASH SAINI

Full Stack Developer | MERN Stack | Backend Developer

yashsaini2044@gmail.com | +91-8630430808 | India | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building web applications using the MERN stack, REST APIs, JWT authentication, MongoDB, and React. Currently pursuing a Full Stack Development internship and building an enterprise automation governance platform and a developer blogging platform. Familiar with Python, Django, AWS, Docker, Nginx, Git/GitHub, and AI/ML concepts, with a focus on scalable and secure application development.

TECHNICAL SKILLS

Frontend: React.js, JavaScript, HTML, CSS, Tailwind CSS, React Router, Axios, Vite, React Markdown
Backend: Node.js, Express.js, REST APIs, JWT, bcrypt, Mongoose, Python, Django, Django REST Framework
Databases: MongoDB, MySQL, PostgreSQL, SQLite
DevOps & Cloud: AWS (Basic Knowledge), Docker, Nginx, Gunicorn, Git, GitHub
Data & ML: Pandas, NumPy, Scikit-learn, Random Forest, XGBoost, TF-IDF, SHAP
Tools: Jupyter Notebook, VS Code, Postman

WORK EXPERIENCE

Full Stack Development Intern | Internmo | Sep 2026 – Dec 2026

- Selected for a 3-month Full Stack Development Internship scheduled from 25/09/2026 to 25/12/2026.
- Gaining hands-on, real-world full-stack development experience with mentorship as part of the internship program.
- Working on practical application-development tasks while strengthening frontend, backend, API, database, and deployment fundamentals.

PROJECTS

RicozGovern – Enterprise Automation Governance & Monitoring Platform | React + Vite, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, Axios, Recharts | **In Progress**

- Building a central control plane for an organization's automation estate to record, monitor, audit, evaluate, and govern automations.
- Designing a MERN architecture with React, Axios, Express REST APIs, authentication and authorization middleware, Mongoose models, and MongoDB.
- Implementing governance domains including automation inventory, lifecycle, performance, compliance, risk, audit logs, and controlled change approvals.
- Roadmap covers authentication/RBAC, automation CRUD, dashboard KPIs, lifecycle management, execution metrics, compliance, audit, testing, and deployment.

Hashnode Clone – Developer Blogging & Publishing Platform | MongoDB, Express.js, React.js, Node.js, JWT, bcrypt, Mongoose, Axios, React Router, React Markdown, Vite | **In Progress**

- Building a full-stack developer blogging platform inspired by Hashnode using the MERN stack for end-to-end content publishing.
- Implementing user registration, JWT authentication, protected routes, Markdown-based technical blogs, syntax-highlighted code snippets, drafts, author profiles, and technology tags.
- Building RESTful CRUD APIs and integrating MongoDB through Mongoose, with tag-based filtering, search, responsive UI, and a public developer feed.

SkillSync – AI-Powered Skill Matching Platform | Python, Django, Scikit-learn, TF-IDF, SQLite, REST APIs, Git

- Developed a backend-driven freelancing platform that matches freelancers with projects based on skill compatibility.
- Built RESTful APIs, authentication, profile management, and backend data-processing workflows.
- Implemented TF-IDF-based skill matching and similarity scoring with recommendation logic.

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science & Engineering | Shivalik College of Engineering, Dehradun, Uttarakhand
Graduated: July 2026
